

Key Vocabulary in Science: Year 4

Environment – Living Things and Their Habitats		Animals – Teeth, Eating and Digestion	
Herbivore	Flowering plants	Digest	Canine
Carnivore	Non-flowering plants	Oesophagus	Molar
Omnivore	Ecology	Stomach	Pre-molar
Food chain	Deforestation	Small intestine	Incisor
Producer		Large intestine	Teeth/Mouth/Tongue
Predator		Rectum	
Prey		Salivary gland	
Consumer		Liver	
Key		Gall bladder	
Grouping		Duodenum	
Classifying		Anus	

Material Properties and Changes – States of Matter		Sound		Electricity	
States of matter	Condense/	Vibration	Hammer	Electricity	Insulator
Condensation		Volume	Auditory	Circuit	Electrons
Solids	Precipitation	Sound wave	Particles	Conductor	
Liquids	Droplets	Amplitude		Battery	Generate
Gases		Pitch	Distance	Cells	Renewable
Water vapour		Frequency	Soundproof	Switch	Non-renewable
Particles		Ear (outer, middle & inner)	Insulation	Socket	
Melt		Cochlea	Absorb (sound)	Appliance	
Freeze		Ear drum	Vacuum	Series circuit	
Evaporate/Evaporation
